Stock Fluctuations Many and Uncertain

palings Small and Professional, With No Evidence of Public Participation in Market.

NEW YORK, Jan. 5.- There was little hat in the stock market today, and sentiment, as expressed in the moveif, was thoroughly uncertain. The ions were constant, and the level the market shifted many times from an trase higher than last night to a lower Dealings were small and were atsted almost together to professional grees. CHICAGO, Jan. 5.—The wheat market opened firm with May up a shade to 1457 14c, at \$1.145, to \$1.145. The eash situation in the Northwest was the principal cause of the early strength. News from Minsapolis was quite builtsh, a claim being made that 1.500,000 bushels of wheat had been ordered taken out of store to go to outside milts. In addition it was reported that elevator stocks there yesterday increased 125,000 bushels. Another builtsh influence was a cablegram from Argentina stating that the wheat yield in Becnes Ayres providence was considerably below expectations and that general rains were interfering with late harvesting. Lower prices at Liverpool, however, had a depressing effect on the market hers. Reports of the excellent condition of wheat in the United States also gave encouragement to bear traders. Many of the pit traders were apparently bewildered by the conflicting reports and remained inert. As a result the volume of trading was rather small during the first part of the day. Later the market became more active and a firmer tone developed. May sold up to \$1.154. During the last hour of trading, however, all of the advance was lost on profit taking. New York Stock Letter.

James A. Poliock & Co., bankers and brokers, 6 West Second South street, furnish the following stock letter and gossip, received over their private wire: NEW YORK, Jan 5.—Logan and Bryan stock letter—Market's action is very encouraging and our advices frem New York are to the effect that we are to see still higher prices.

New York, Jan. 5.—T. A. McIntyre & Co., stock letter.—Although the market was purely professional in character the operations reflected the development of a somewhat more bearish feeling although this appears to be based on apprehension of some unfavorable developments at Washington rather than on apprehension of some unfavorable developments at Washington rather than on apprehension of some unfavorable developments at Washington rather than on any known facts. There is nothing in the general situation that can be considered as bearish, but the generality of traders appear to entertain the belief that that stocks can be bought somewhat cheaper before the middle of the month. This is not unlikely but we fall to find anything which would justify operations on the short side and as general conditions are satisfactory and promise the development of substantial bull market later in the month we continue to adhere to the policy of buying the better class of railroads and industrial stocks on any moderate declines. The big interests continue to mainfain a builtan position and for the long pull we believe that conservative purchases on soft spots will prove highly profitable.

NEW YORK, Jan. 5.—Walker stock let-ter—Some of the specialties were taken hold of and advanced. Erle and Reading were well bought and made good ad-vances. The close was irregular but with prices well maintained. We look for good buying on the declines.

NEW YORK, Jan 5-Dick Brothers stock letter.—The market has been breggular again today but generally firm in tone. At fimes it lacked support but there was no important pressure and prices rathed easily on light buying. Evic shares were again very strong, being well bought at advancing prices and closing with substantial gains. Reading also advancing prices also advancing prices and closing with substantial gains. ith substantial gains with substantial gains. Reading also advanced sharply. Amalgamated Copper was another strong feature, rallying sharply from an early break. United States Steel stocks were again rather heavy and U. P., St. Faul. S. P., Atchison, Mo. Pacific and E. & O. were barely steady. There was no important news. Railroad returns were favorable. Money was easier and honds showed strength.

NEW YORK, Jan 5.—Hutton stock letter.—Today's market was of the same character as the last few days. Dealings almost entirely of professional character. There is undoubtedly strong support given en the declines. Stocks are well taken around the low prices of yeaterday and today. The buying of Eric and Reading common is especially good. We believe good stocks should be purchased around today's prices.

NEW YORK, Jan. 5.—Marshall, Spader & Co., stock letter.—The volume of transactions today was too moderate on which to base positive conclusions, but lack of pressure was the most noticeable feature of the day's business. We must rather look to such inducance as have heretofere governed the situation in increased traffic and earnings of rathroads, abundance of money and a disposition on the part of the moneyed interests to acquire another hold on securities. The market has a healthy look.

After Years of Terrible Suffering.

Mary Josephine Bezy, Floyd Knob, Ind., writes: "After suffering untold agenies for 32 years from Asthma, I was cured by Schiffmann's Asthma Cure. I used to be so bad that I could not move without help, but I can now do all my cwn work." Another writes: "My little boy 7 years old has been a sufferer for several years, sometimes so bad off that we could not hold him in bed, expecting any moment for him to breathe his last. Doctors did him no good and we had almost given up in despair, when through accident we heard of Schiffmann's Asthma Cure, tried It and it almost instantly relieved him." Mrs. D. C. Harris, Elbow P.
